Manor Healthcare was established in 2007 and currently employs over 150 staff in providing nursing care services, respite and day care provision to older people and adults with a learning disability in our three care centres. We employ dedicated, well trained staff to provide 24 hour care in a professional and respectful way. At each of our care facilities we constantly strive and are dedicated to improving the independence and quality of life of our residents by offering freedom of choice, tailored packages of care, nursing support and engaging activities in order to meet assessed need. We constantly strive to offer high quality aged care services and as such we have embarked on a refurbishment and extension plan for our facility in Rathfriland and we propose to provide a new purpose built nursing and independent living facility in Newcastle Co. Down.
